

Made in WA from 100% Recycled Tyres

The Throughcycle Rubber Garage Mat is designed to protect garage floors from oil, water, mud, and everyday vehicle wear. Manufactured from high density recycled rubber, it provides a durable, non slip surface that helps contain spills, protect concrete, and maintain a cleaner, safer garage environment.

- ✓ **High-Density Rubber**
- ✓ **Spill Containment**
- ✓ **Anti-Slip Surface**
- ✓ **Easy to Clean**

Floor Protection

Protects concrete and hardstand surfaces from wear, impact, oil drips, and daily vehicle use.

Easy Cleaning

Suitable for garages, car bays, sheds, workshops, and covered or exposed areas.

Non Slip Surface

Provides grip underfoot and under tyres for safer movement in garages and work areas.

Indoor and outdoor use

Suitable for garages, car bays, sheds, workshops, and covered or exposed areas.

Heavy Duty Performance

Built to handle cars, utes, 4WDs, tools, and repeated use in active environments.

Easy Cut Installation

Supplied in a roll pack that is easy to roll out, cut to size, and position.

Size: 3mm thick Roll, 1.2m wide x 6m long
